

Professional Pet Products 2011-12

Professional Pet Products is becoming

more and more important in people's lives. In Canada a large portion of people have one or more pets sharing their homes.

From a child's first puppy or kitten to a young man or woman riding their horse or the senior

citizen living alone with a pet, companion animals tremendously enhance our lives.

All products in this catalogue have been selected not only for their superior quality but the animal's safety and well being foremost in mind. Playing, training and exercise are all fundamental to enjoying life with a four-legged friend.

The products included in this catalogue are available through your Veterinary Clinic.

Simply ask your Veterinarian,
Animal Health Technician or the
receptionist to order the
products you have chosen and
the selections will be delivered to
the Veterinary Clinic, usually the
next day

Please consult with your Veterinarian if you have any questions regarding any of the products featured in this catalogue.

All products in this catalogue have been selected by veterinarians so as to ensure the quality, safety, appropriateness and value to the pet and the care provider.

In 1993, Canadian Basset Hound Owner, Marianne Bertrand, began designing boots for her three Bassets who needed protection from the cold, damp, icy, snowy and salt ridden streets of Toronto. Inspired by the original Mukluks, Marianne called her dog boots Muttluks®. This current, unique, Muttluks® dog boot has evolved through constant winter conditions testing, plus the invaluable comments of over 62,000 dog owners who use Muttluks® regularly.

Power Paws™

Power Paws. The power to stand! The power to stop! The power to go!

Power Paws[™] are economical, durable, and fit all breed sizes. They do not require Velcro or buckles to stay one, so they are very comfortable and can be worn by all dogs. The cotton material used for Power Paws[™] is light and comfortable, and even dogs who hate having things on their feet are not bothered by them! Power Paws[™] are easy to care for and can be washed in a washing machine or by hand.

Power Paws™ are a perfect solution to these common pet issues!

- Traction: Grips on slick surfaces, especially useful for dogs with hip issues, arthritis, long nails
- Mobility: Provides senior dogs, regardless of size/breed with freedom and easy movement
- Fashion: Cute, fun, and stylish.
- Prevention: Refinishing hardwood floors is expensive! Power Paws will prevent dogs nails from scratching your floors.
- Protection: Vets and concerned dog owners are also using Power Paws as protection for foot injuries in place of traditional e-collars.

For more information or testimonials check out the website at: www.woodrowwear.com

Kong Wobbler - New!

The KONG Wobbler is a KONG- shaped food dispensing toy and feeder that provides a new way to entertain and challenge your dog. The Wobbler sits upright until pushed with a dog's paw or nose, then wobbles, spins and rolls, dispensing treats through a KONG-shaped hole near the top. Dogs quickly learn that motion causes treats to fall out, but the unpredictable movement keeps the toy challenging, even for seasoned Wobbler users. The Wobbler is Made in the USA of durable, FDA food-approved, high-strength polymer. It unscrews for quick filling and easy clean-up, and is top-drawer dishwasher safe. The KONG Wobbler is suitable for all dogs weighing 25 pounds or more and the small Kong Wobbler is designed for dogs under 25lbs.

Benny Bully Organic Liver Biscuits

Dog owners have discovered Benny Bullys Light™ ORGANIC Liver Treats as a nutritious, pure & natural alternative to traditional dog treats. Benny Bullys Light™ can be used as a nutritional supplement because many pet foods lack the proper levels of Nutrients. Choice sections of beef livers that provide true pure meat content are added to the processing of these biscuits, that attracts dogs. Developed in the traditional Benny Bullys way, using an innovative cutting and drying process, but now with less meat content, combined with all organic ingredients. Made in a certified organic facility with prime

human edible grade organic beef liver, combined with organic grains and vegetable flours, slicing and sizing each piece to provide maximum palatability, and attract the most hard to please pet. There is NO WHEAT, and the beef liver is less than 10%, making it a great diet for those dogs with special needs. Available in 3 sizes.

Green-Um Tablets

Mark and Chappell have developed a unique product that can solve the problem of unsightly brown patches on carefully manicured lawns. Green-UM is a totally natural product, which protects against lawn burn, by safely eliminating the damaging effects of cat and dog waste. Green-UM is specially formulated with a natural plant extract, which helps bind the ammonia present in pet waste, which causes lawn burn. It is this binding action that helps prevent lawn burn. Given to your dog on a regular basis will help keep your garden green and lush!

PawPlunger®

No more humiliating doggie boots! No more trying to coax your dog to the sink, tub or shower. No more dragging out the hose only to have your furry friend run in the other direction. PawPlunger® was created to eliminate all that stress for you and your pet. PawPlunger® gently, safely cleans paws BEFORE your best friend cleans them on your carpeting, bedding, or clean floor. Or on your lap! This handy tool will save you all the time you are spending now on trying to clean up your messy, dirty, lovable friend. PawPlunger®. can be useful in the spring, summer and fall. In winter, it is completely invaluable, when ice and snow-melting chemicals not only get stuck in your pals' fur but hides in between the pads of their feet and can burn or sting without your knowledge.

Just fill the PAWPLUNGER with warm water and plunge each soiled paw into the PAWPLUNGER once or twice (depending on the amount of dirt.) Let the water and soft deep-cleaning bristles do the work. After plunging each paw, simply dry with a towel and let your pet have the run of the house again without fear! For dogs 20-80 lbs.

BUSTER Memory Foam Pet Beds - New!

The BUSTER Memory Foam Dog Bed provides the ultimate in comfort due to two factors, by reducing the number of pressure points and by providing excellent support. Memory foam reacts to body heat, which allows it to mould itself to the shape of a warm body, thus distributing the body weight over a large area and relieving pressure on joints. The BUSTER memory foam dog bed improves the quality of life especially for dogs with joint problems and senior dogs. The cover is made of 90% polyester and 10% cotton. Washable at 30 degrees Celcius. Available in 2 colors and 2 sizes.

Aikiou Interactive Dog Bowl - New!

The Aïkiou is an interactive dog food dish. By necessity, animals in nature spend much of their time hunting and foraging for their meals. Dogs in particular are adept at seeking and finding food. Unfortunately, this innate problem solving skill is often under exercised in domesticated animals sometimes leading to unwanted behaviours around the home. The Aikiou (IQ) bowl was developed with this in mind. Food is hidden inside this dog food bowl's many compartments, which your dog can access by sliding the doors open or spinng the central wheel. Allowing your dog to exercise his or her problem solving instincts with the Aikiou bowl fun and rewarding for you and your pet. Available in Bue or Pink.

PetSafe Outdoor Bark Control Birdhouse

Love thy neighbor by stopping his dog from barking. If your neighbor's dog is driving you bonkers with his barking, help is here! Our ultrasonic outdoor bark control unit looks like any ordinary birdhouse that can hang in a tree, on a fence post or anywhere outside. It detects barking from up to 50 feet away and has 3 range settings. Whenever your dog — or your neighbor's dog — barks, he will hear a safe, high-pitched sound (inaudible to humans) that will cue him to stop his annoying habit.

Thundershirt is an excellent treatment for most types of dog anxiety and fear issues. For many anxieties, we recommend just putting on a Thundershirt and observing the results (No training!). You very well may see significant improvement for noise, crate, travel, barking and others with absolutely no training. For more complicated anxiety cases, we recommend using Thundershirt as part of a behavior modification program.

PetSafe Little Dog In-Ground Fence System

Small dogs love our new lightweight collar. Featuring our new lightweight collar, specially sized for small dogs. A buried wire marks the boundaries you wish to set for your dog. As your dog approaches the boundary, his collar receives a radio signal and issues a warning beep. If he continues into the boundary, your pet receives a safe but startling Static Correction. While harmless, the Correction will persuade him to stay in the Safe Zone you've established. The system offers adjustable levels of correction so you can find the right motivation for your dog's temperament. Proven safe and effective for pets over 3.6 kg (8 lbs). Adjustable waterproof collar for neck sizes 15-66 cm (6 "-26"). 4 Training Modes with Tone only option.

NewTrix Dog Halter

The NewTrix Dog Halter is the first in our upcoming series of carefully researched and developed pet training products. Developed by Canadian Veterinarian Dr. Robert Curran. We always believed in it, but the response we have had from so many top Veterinarians, trainers, breeders, dogs and owners has been overwhelming.

The NewTrix Dog Halter is guaranteed to make walking a comfortable experience for you and your dog. It is not a muzzle. It is an evolutionary tool to make dog training and walking a simple, safe and fun experience for everyone.

The NewTrix Dog Halter harnesses the natural balance reflex of your dog to stop him or her from pulling on the leash. Instead of hooking under the dog's chin, twisting his neck, our ingenious "push-pulley" exerts a gentle pressure behind the dog's head. Your dog automatically leans back into the pressure and stops pulling! The collar only restrains your dog when he struggles against it, relaxing when he stops, much like a seatbelt restrains you in your car.

Coastal Size Right Nylon Adjustable Harnesses
Coastal Pet Products introduces the new Size Right Harness. This

completely adjustable, figure-8 harness allows the neck and girth to be perfectly sized. A comfort fit pad with swivel ring allows the dog to move freely without the lead tangling under the legs.

Offered in four sizes and the most popular colors, Coastal's Size Right harness is simple to use. Just place it over the dog's head and snap the buckle. Safe and comfortable, the Size Right is unconditionally guaranteed.

Coastal Control Ease Harness with 6' Lead

The Control Ease Training Harness stops your dog from pulling and helps in the overall training of your pet. Recommended by professionals, the patented design allows for both lateral and rear control. Guiding by the chest slows a dog when he pulls forward and redirects his attention. Steering with the back induces the natural opposition reflex enticing a dog to walk ahead. Once a dog is able to go for a walk without pulling, the Control Ease Training Harness can be used as a standard walking harness.

Cat cat Furniture

Herta Cat Furniture

The Ultimate in Cat Furniture – When you take your new kitten or cat home you suddenly find there are a list of necessities needed to make kitty comfortable. Food bowls, a litter box, a couple of toys to keep them happy, those are just a few of the items needed.

What you do forget is that kitty needs to exercise those claws, and your furniture is a good place to start. That is unless you invest in a good safe scratching surface or tree to encourage your cat to do what comes naturally and save your furniture from being shredded.

Colours may vary. Products shipped in assorted neutral colours.

Cat preying behavior involves

tracking the high frequency noise
emitted by mice, stalking close to the
prey and pouncing when a definite,
linear, clear approach is available.

Play-N-Squeak™ products provide
realistic sound, feel and action that
continues to stimulate the cat's preying
instinct and does not get boring.

Ourpets Play-N-Squeak® Mouse Hunter Your cat will stay busy hunting, chasing, stalking and purpling, and don't be surprised if be/che brings you his

pouncing, and don't be surprised if he/she brings you his "kill' as a gift. It's that realistic.

Aikiou Stimulo Activity Food Center - New!

By necessity, animals in nature spend much of their time hunting and foraging for their meals. Cats in particular are adept at seeking and finding food. Unfortunately, this innate problem solving skill is often under exercised in domesticated animals sometimes leading to unwanted behaviours around the home.

The Stimulo bowl was developed with this in mind. Food is hidden inside the bowl's many tubes, which your cat can access by using their paws. Allowing your cat to exercise his or her problem solving instincts with the Stimulo bowl fun and rewarding for you and your pet.

Soft Paws Feline Nail Caps

Features:

Developed by a veterinarian, Soft Claws are vinyl nail caps that glue on to your cat's claws. It covers the claw tips so no damage occurs when your cat scratches. Soft Claws are an excellent alternative to declawing. They are easy to apply at home and cats and their owners love them. They are completely safe and humane and can be used on cats of all ages.

Each package of Soft Claws contains 40 nail caps, 2 tubes of adhesive, applicator tips and easy to follow instructions. One package contains enough nail caps for 4 applications on Kitty's front paws.

The adhesive is the same type of adhesive used in many veterinary procedures. The caps and dried adhesive are non-toxic and completely safe. Soft Claws will not interfere with the normal extension and retraction of your cats nails. Your cat can still scratch with Soft Claws allowing normal stretching and scratching behavior to continue. Just no damage will occur. Most cats tolerate Soft Claws extremely well. The vast majority of cats don't even know they are wearing them.

Sizes available:

Kitten

Soft Claws will fit most kittens by the time they reach the age of 12-16 weeks. To test, try a nail cap on first without the adhesive. If it looks too big, don't glue it on. The nail cap should fit snugly, like a glove. The nail caps can also be trimmed to fit if needed. Kittens up to about 5 months of age and 5 pounds body weight generally fit into the kitten size. It is best not to trim kitten's nails before application because their nails are so small.

Smal

Approximately 6 months of age. Approximately 6-8 pounds.

Medium

Approximately 9-13 pounds. Most adult average size cats wear medium.

Larae

Approximately 14 pounds and up. Very large-boned and large-breed cats wear large. Maine Coons, for example, are very large cats and generally wear large.

Littermate (Canadian Barley) Cat Litter

All Natural - Made from Canadian waxy hull-less renewable barley. This variety of barley has been specifically designed by the University of Saskatchewan to provide the highest rate of moisture absorption. Littermate is process heat technology that enhances the barley's gelatinized starch content, which in turn increases its fluid absorption and natural clumping abilities. Quickly iodegrades when exposed to the elements. It's non-toxic and cat-friendly, and is easily digested. *Soft - The soft texture is gentle on kittens and recently de-clawed cats. Available in 2 sizes.

Pestell Easy Clean Clay Clumping Cat Litter

Pinnacle Pine Horse Bedding

Pine pellets are well known for their moisture absorbing qualities and elimination of odor. This is proven very well in Pinnacle Pine Horse Bedding as a 40 lb. bag can absorb 160lbs. of moisture or four times its bulk density. Just four bags is the equivalent of a pick-up truck load of shavings. Along with its superior moisture and odor absorbing qualities, Pinnacle Pine Horse Bedding lasts longer than conventional horse bedding products, thereby reducing costs. Stall cleaning time is reduced because Pinnacle Pine Horse Bedding is so easy to handle and dispose of. And, it is totally biodegradable.

Safe Paw Enviro Safe Ice Melter

Safe Paw was developed by a chemist engineer to eliminate the health and environmental problems associated with melting ice and snow. Safe Paw contains no salt. Its patented dual-effect compound, made up of crystalline amide core infused with special glycols, provides a non-corrosive composition with two-way timed-release action. The liquid component starts melting ice instantly while breaking its surface tension and works up to two degrees below zero. This allows the crystal-core to quickly penetrate and destabilize the ice and speed up the melting process.

Health and ID Records Booklets

Keep track of your pets important information in one easy to use (and find) location. Vet exams, services, and supply information are just a few of the things you can keep track of using this Passport. And you never know who will need it. When traveling with your pet, you can get this Passport signed and stamped by your veterinarian and it can act as proof of immunizations, rabies shots, and other vaccines for airlines, hotels, and even doggie day care facilities. If you leave your pet with a friend or family member, this passport is a convenient go to guide should any thing arise while you're away, and if you're moving, handing this passport over to your new vet is a great way to make sure all of your pets health records and history are transferred to their files. You can even prepare for the unexpected with entries for a photo, markings, and other identifiers. It can help you recover your friend quickly.

Dr. David Perrin

Dr. David Perrin practiced Veterinary Medicine in the Kootenay region of British Columbia for 26 years before penning his first collection of stories, Don't Turn Your Back in the Barn

As a young man, he enjoyed writing poetry and short stories, but it wasn't until 1999 when he and his family lived in Hawaii that he put his heart into full-time creative writing. During that year, he also carried out his own studies of the book market: "I'd ask people in bookstores why they were buying certain books." The exercise provided valuable insight into the market, including the fact that women are the main book buyers and that they like colourful covers. Five years after that sojourn in Hawaii, he has three best-selling volumes of Veterinary adventures in bookstores across Canada.

Dave Perrin was raised in a small community near Trail and attended Selkirk College before moving on to the University of British Columbia in Vancouver. He earned his degree as Doctor of Veterinary Medicine at the Western College of Veterinary Medicine in Saskatoon.

He served on the council of the B.C. Veterinary Medicine Association for seven years and was one of the founding members of the Associated Veterinary Purchasing Company that distributes drugs and equipment to Veterinarians in the province. In his early years of practice, he wrote scientific articles for the Canadian Veterinary Journal. One of the articles dealt with an outbreak of Bacillus cereus mastitis, a crisis that he recounts in his third

book. Where Does It Hurt?

Since 2000, Dr. Perrins publishing company, Daves Press, has released three best-selling books about his Kootenay practice. Don't Turn Your Back in the Barn has also been published in the United States, Australia, and New Zealand. As well, it has been optioned by Sony for publication in Japan. CBC Television is currently looking at the country Vet books as the basis for a possible series.

After Four Canadian bestsellers in his "Country Vet" series, Dr. David Perrin is back with more accounts of his adventures as a veterinarian in the backwoods of southeastern British Columbia.

Construction on his dream home is progressing at a snail's pace, but everything else in Dr. Dave's complicated life is charging ahead full tilt. He's hired a recent graduate to assist with his practice and is moving to a new clinic. With faithful dog, Lug, at his side, dave deals with a multitude of eccentric clients and unpredictable patients: Petunia, the housebroken calf; Skroopchuck, the cat from hell; Snowball, the cockatoo with a taste for blood; Greta Maletta, the family pet who doesn't know she's a chicken; and Coonie, a wayward raccoon who lays claim to the family farm.

A Horse in distress brings Dr. Dave in touch with romance again when he meets the owner.

Although people say he can work magic with animals, can his charm work on the human species? Meanwhile, the new vet has everyone convinced he alone can solve their problems. While mentoring his assistant, Dr. Dave learns a few things about himself--that not everyone responds to the rigours of practice as he does, and that his protégé appears to be leaning to the dark side...
