

INVITATION TO A LIVE WEBCAST

Feline infectious peritonitis: treating the untreatable

June 3, 2025, at 7 p.m. (EDT)

4:00 5:00 6:00 7:00 8:00 8:30
BC (PDT) AB/SK (MDT) MB (CDT) ON/QC (EDT) PEI/NB/NS (ADT) NL (NDT)

Feline infectious peritonitis (FIP) has historically been considered a fatal disease with no effective treatment. With dedicated research, treatment options are now available that result in high rates of success. FIP is now considered to be a treatable disease. This webcast will provide a short review of disease etiology, transmission, and pathogenesis, and will focus on the novel therapeutics which have changed the face of FIP including Bova GS-441524 which is now available in Canada. During this webcast, **Dr. Kelly St. Denis**, will review drug selection, dosages, monitoring and follow-up post-treatment.

Join us to explore how FIP can now be considered a treatable disease, and how we can offer new hope to pet owners.

Following our webcast, we invite you to stay on for an extra 15 minutes to learn about Bova GS-441524.

Compounded Bova GS-441524 is now available in Canada through a partnership between Trutina Pharmacy and Bova UK. Dr. Samantha Taylor, BVetMed (Hons), CertSAM, Dipl. ECVIM-CA, MANZCVS, FRCVS, of the UK, will present insights on the research, clinical studies, and stability testing behind this compounded oral suspension—helping you better understand its role in the treatment of FIP.

MEET OUR SPEAKER

Kelly St. Denis

MSc, DVM, Dipl. ABVP (feline practice)

Dr. St. Denis is board certified with the American Board of Veterinary Practitioners in the specialty of feline practice. In her early career she trained in molecular biology and immunology, working in the field of cancer research. In 1999 she graduated from the Ontario Veterinary College and in 2007 she opened a feline specialty hospital, completing her ABVP certification in 2013. Dr. St. Denis is co-editor of the Journal of Feline Medicine and Surgery and JFMS Open Reports and medical co-editor of the AAEP Feline Practitioner Magazine. Currently she works in clinical practice 2 days a week, is a consultant on the Veterinary Information Network and lectures internationally on all things feline.
