

Brachycephalic Anesthesia: The Good, the Bad and the Adorably Ugly

RECORDING OF SEPT 14/22 ZOOM SESSION

Speakers:

Dr. Jessica Pang BSc (Hons) DVM MVetSc

Dr. Daniel Pang BVSc PhD Dipl.ECVAA DACVAA MRCVS

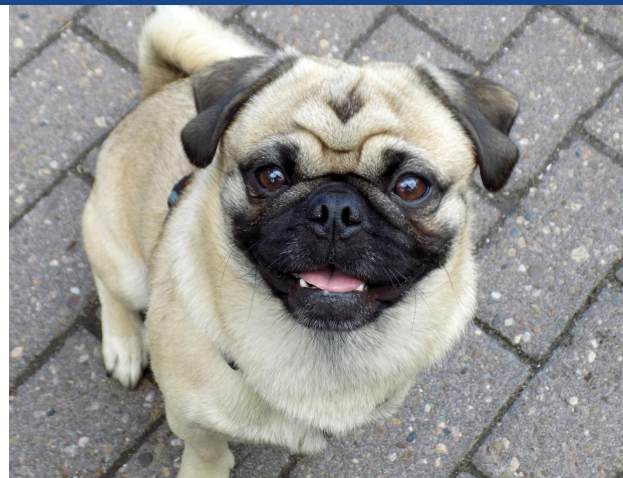

Description:

This session will focus on anesthesia of brachycephalic dogs, from pre-anesthetic considerations through to recovery. Identifying and treating common complications will be discussed throughout each stage of the anesthetic. The latter half of the session will be devoted to case examples and an interactive Q & A.

Jessica Pang BSc (Hons) DVM MVetSc

Dr. Pang completed her DVM, Master of Veterinary Science, and anesthesia residency at the Western College of Veterinary Medicine. After completing her residency, Dr. Pang provided sabbatical cover at WCVL, practiced in London, England, and spent six years as a research associate at UCVL. More recently, she was an anesthesia clinician in the Faculté de médecine vétérinaire at the Université de Montréal and finally returned to Calgary in 2019. Dr. Pang currently works as a part-time clinical instructor at UCVL, as lead anesthetist at Alberta Veterinary Dentistry, and as a consultant.

Daniel Pang BVSc PhD Dipl.ECVAA DACVAA MRCVS

Daniel Pang is an Associate Professor of veterinary anesthesiology at the University of Calgary. He received his veterinary degree in 2000 from the University of Bristol and completed a MSc and residency in veterinary anaesthesia at the University of Montreal after a year in a small animal clinic and an internship (University of Glasgow). He received his doctorate in neuroscience (molecular mechanisms of volatile anaesthetics) from Imperial College, London (2011). Dr Pang is a Diplomate of the European and American Colleges of Veterinary Anaesthesia and Analgesia.

Dr Pang teaches anesthesia in the Faculty of Veterinary Medicine at the University of Calgary. He has supervised numerous undergraduate and graduate students and his research interests include pain assessment (pain scale development and validation, including grimace scales), perioperative safety (checklists and M&M rounds) and improving clinical practice (clinical audit). Beginning in 2023, he will be co-Editor-in-Chief of the journal, Veterinary Anaesthesia and Analgesia.
