Are homes truly “cat-friendly” or just “cat-habitable”? Join **Dr. Kelly St. Denis** for a webinar that moves beyond the medical vs. behavioural divide to explore a holistic framework for feline health and well-being. In this webinar, she will introduce the Health Triad, where physical, cognitive, and emotional health intersect, and the Five Pillars of a Healthy Feline Environment, showing how these frameworks help you understand and address behavioural challenges in practice. We will explore feline communication, including pheromones, scratching and other marking behaviours, connecting these concepts to real-world challenges, including house soiling, intercat tension, and the introduction of a new cat into the home.

Attendees will gain knowledge on identifying deficiencies in environmental management, and understanding cats’ territorial blueprints, helping to guide clients toward a more harmonious home. Register now to elevate your feline behaviour expertise.

Kelly St. Denis

MSc, DVM, Dipl. ABVP (feline practice)

Dr. St. Denis is board certified with the American Board of Veterinary Practitioners in the specialty of feline practice. In her early career she trained in molecular biology and immunology, working in the field of cancer research. In 1999 she graduated from the Ontario Veterinary College and in 2007 she opened a feline specialty hospital, completing her ABVP certification in 2013. Dr. St. Denis is co-editor of the Journal of Feline Medicine and Surgery and JFMS Open Reports and medical co-editor of the AAFP Feline Practitioner Magazine. Currently she works in clinical practice 2 days a week, is a consultant on the Veterinary Information Network and lectures internationally on all things feline.

Following this presentation, we invite you to stay on for an extra 15 minutes to learn about Feliway®.

Presented by

Shannon Walsh

DVM, Veterinary Services Manager, Ceva Animal Health

This special presentation will celebrate 30 years of Feliway® and explore the science behind the Classic, Friends, and Optimum ranges, along with practical strategies to support calmer veterinary visits before, during, and after appointments. We will also share tools to help create a more feline-friendly clinic environment through the Calm Clinic initiative.
