

INVITATION TO A LIVE WEBCAST

Strategic Use of Dermatopicals Containing Ophytrium in Veterinary Dermatology – Catering to the Individual Patient Skin Condition

September 24, 2026, at 7 p.m. (EDT)

4:00 **5:00** **6:00** **7:00** **8:00** **8:30**
BC (PDT) AB (MDT) SK/MB (CDT) ON/QC (EDT) PEI/NB/NS (ADT) NL (NDT)

Topical therapies are key to managing skin conditions including allergies, seborrheic dermatitis, and secondary bacterial and yeast infections. This webinar will focus on the beneficial properties of Ophytrium in the DOUXO® S3 line of topical products and new strategies on when to use which products to help enhance the epidermal barrier and promote antimicrobial stewardship.

Anthony Yu

BSc, DVM, MS, DACVD

Dr. Yu completed his DVM at the Ontario Veterinary College (OVC) in 1990, and after finishing a residency and MSc in 1995 at Auburn University, Alabama, USA, he became a Diplomate of the American College of Veterinary Dermatology in 1996. He started the first private dermatology referral practice in Oregon where he dealt with chronic ear, skin, and allergic conditions in dogs, cats, and horses for 11 years. He then returned to the OVC as an Associate Professor in Veterinary Dermatology in 2004. Since 2013, Dr. Yu is back in private referral practice at the Veterinary Allergy Dermatology & Ear Referral Clinic (VADER) in Southwestern Ontario. He has lectured extensively and authored, and guest edited several publications in canine, feline, and equine journals and veterinary textbooks.

Following this presentation, we invite you to stay on for an extra 15 minutes to learn about Ceva Canada's DOUXO® S3 dermatology portfolio.

Shannon Walsh, DVM

Veterinary Services Manager, Ceva Animal Health

Explore the science behind Ophytrium, what differentiates the product line, and how the various formulations can be integrated into patient care. The session will also introduce the newest addition to the range, DOUXO® S3 Ear Cleaner, and provide information on a vet-exclusive pet owner rewards program available to clinics.
