

Live Equine Webinar Part 2/2

Standing Sedation and Useful Nerve Blocks *with Dr. Valverde*

Register!

This live equine webinar will cover essential principles for standing sedation procedures, highlighting effective anesthetic protocols and nerve blocks with an emphasis on proper pain management. The webinar will also review pain physiology and how anesthetic drugs influence pain pathways to optimize intra- and postoperative sedation and analgesia in horses.

Join us Wednesday, February 11, 2026, 7 p.m. EST

Duration 1 hour.

The webinar will be recorded.

CE applications in progress.
