**Virbac**

## TOPIC: **DESLORELIN IMPLANTS: HOW DO THEY WORK AND THEIR CLINICAL APPLICATIONS FOR PET CONTRACEPTION**

**PRESENTER: Dr. Lluís Ferré-Dolcet, Dipl. ECAR; PhD; MSc; DVM**

Lluís graduated as a veterinarian in 2011. He went on to earn a Master's degree in 2012 and his first PhD in 2016. Lluís completed a second PhD on the control of feline reproduction using short- and long-acting GnRH compounds at the University of Padua in 2020. From 2017 to 2020, he completed a residency in Animal Reproduction under the supervision of Dr. Stefano Romagnoli at the University of Padua, leading to his European Diploma from the European College of Animal Reproduction in November 2021. In January 2021, he founded and led the Reproduction, Obstetrics, and Neonatology Unit at the San Marco Veterinary Clinic in Padua, Italy, a role he held until March 2024. Currently, he serves as the Head of the Small Animal Reproduction Department at AniCura Ars Veterinaria in Barcelona, Spain. Lluís was elected to the Board of the European Society of Small Animal Reproduction in 2022, where he now serves as Board Secretary. His main areas of interest include the use of deslorelin, the physiology and pathology of the canine prostate, feline reproductive endocrinology, and the long-term effects of surgical sterilization.

### WEBINAR DETAILS:

**DATE:**

Tuesday,  
August 12th,  
2025

**TIME:**

12:30 p.m. ET  
11:30 a.m. CT  
10:30 a.m. MT  
9:30 a.m. PT

**DURATION 1.5hrs\*:**

60 min. presentation  
30 min. Q&A

**MODERATOR:**

Dr. Natasha Smith

**REGISTER NOW:**

### Learning Objectives:

- Understand the pharmacological mechanism of action of SUPRELORIN® as a GnRH agonist implant.
- Identify the approved clinical indications for SUPRELORIN in male dogs and cats.
- Analyze current scientific evidence supporting the use of SUPRELORIN in veterinary reproductive medicine.
- Interpret clinical cases to evaluate the practical benefits and limitations of SUPRELORIN in real-world settings.
- Develop evidence-based decision-making skills for incorporating SUPRELORIN into routine clinical practice.

**\*Attendees (who are recorded as participating live for one hour) will receive an email after 15 days to document the CE credit. This presentation is a live event but will be recorded and made available to registrants for a limited time. This webinar is awaiting RACE approval.**
