

**This program is approved by the AAVSB RACE to offer a total of 1 CE Credit.**

Pet Poison Helpline and AVMA LIFE have teamed up to co-sponsor webinars on a variety of topics pertaining to veterinary wellness. We share a passion for the veterinary industry and a desire to help our profession grow.

We hope you can join us on our journey!

**“Something to Chew On: A Start to Finish Overview of Foodborne Outbreak Investigations”**

**Date: Thursday, September 12<sup>th</sup>**

**Time: 12:00 – 1:00 pm Central Time**

**Speaker: Colin Basler, DVM, MPH**

**Veterinary Epidemiologist**

**Centers for Disease Control and Prevention**

What do Lettuce, Turkey and Papayas have in common? They have all been the source of recent foodborne outbreaks! This webinar will provide an overview of how multistate foodborne outbreaks are identified and investigated. It will also provide a detailed review of some recent Salmonella and E. coli outbreak investigations. Come learn how veterinarians are involved in investigating and preventing foodborne outbreaks.

We are also excited to announce that we will be using a new webinar hosting platform this year!

Prior to webinar, please test your system to ensure it meets the minimum requirements.

After registering, you will receive a confirmation email containing information about joining the webinar.
