Join us and discover how to create a more peaceful euthanasia experience for patients, their families, and the care team. This webinar covers every aspect of modern euthanasia, including compassionate communication, sedation protocols, navigating challenges, and safely achieving “muzzle-free” euthanasia for even the most fractious patients. You’ll also learn tips for room setup, grief resources, and respectful body handling, ensuring a meaningful and peaceful experience from start to finish.

Emily is the founder of The Art of Goodbye, a company dedicated to providing world-class hospice and euthanasia training for veterinary teams, ensuring every pet has access to a peaceful passing.

A Registered Veterinary Technician, Certified Hospice and Palliative Care Technician, and Certified Peaceful Euthanasia Professional, Emily has spent nearly a decade working exclusively in end-of-life care. In 2021, she became one of the first RVTs in Canada to regularly provide in-home euthanasia under indirect veterinary supervision. Since then, she has guided thousands of families through compassionate end-of-life care.

Ms. Emily Piche
(RVT, CHPT, CPEP)
