A friend of mine is a vet tech and said this is the most user friendly way for her to connect with vet clinics and pick up flexible work. Sounds like more vet techs will now be able to work independently and simply locum for multiple clinics...

Finding temporary workers, especially on short notice, is such a time consuming and frustrating endeavour. This site offers the ability to find qualified, available talent easily and makes the communication and scheduling SO much easier. It's a game changer for clinics and locums.

Super easy for clinics to source good locums. Website is quick and easy to use and rates are reasonable. A great tool for the clinics and the locums.

Leilani S, Medical Care Manager, VCA Canada, AB :

"IMLocum is the missing piece of the puzzle, not just for staffing solutions, but for employee wellness. It relieves stress for the managers who need to find the temporary staff, the staff who feel guilty about calling in sick, and the employees who feel overwhelmed by working without adequate staff. It has taken many hours of work off my plate."
