

YOU ARE INVITED TO A LIVE WEBINAR

September 11th, 2019, from 7:00 to 8:30 p.m. EDT*

GAIN A WHOLE NEW PERSPECTIVE ON CANINE OSTEOARTHRITIS

Join **Dr. B. Duncan X. Lascelles** as he reviews new developments for treating OA, including the newest NSAID available in Canada with an innovative mode of action. He will also outline his recommended protocol for OA pain management.

Dr. Lascelles is a Professor in Small Animal Surgery and Pain Management at North Carolina State University. His research program develops methods to measure pain associated with spontaneous disease in animals, and seeks to understand the underlying neurobiology. His work improves pain control in companion animals, and facilitates analgesic development in human medicine.
