Edmonton	Thursday November 27, 2025	9:00 am – 2:00 pm
Calgary	Friday November 28, 2025	9:00 am – 2:00pm

Darren Osborne

Darren Osborne is the Director of Economic Research for the Ontario Veterinary Medical Association (OVMA) and Economic Consultant for the Veterinary Hospital Managers Association, and Canadian Veterinary Medical Association.

Darren conducts economic research and analyses data in order to provide thousands of veterinarians with Fee Guides, Economic Reports, Personal Benchmark Reports, Reports on Compensation and Benefits for Associate Veterinarians and Non-DVM Wage Reports. Darren's newest project is a Practice Dashboard Report that automatically extracts financial information from veterinary practice management software to provide monthly metrics that track performance and compare to the average veterinary hospital in the region.

Darren attended York University and completed his Master's Degree in Economics in 1992. When he is not crunching numbers, you can find Darren engaged in prolonged conversations with Dr. Jim Cheddars, his incredibly vocal Flame Point Siamese Cat.
